

Hello!

I am Eldrin Bernardino
Art and music lover,
graphic designer and
UI/UX enthusiast.

[Me](#) • [About](#) • [Works](#) • [Skills](#) • [Contact](#)

I am a fresh graduate of BS Information System from La Verdad Christian College, Inc - Apalit, Pampanga. On my freshman and sophomore year, I like coding and developing web applications. But as time goes by, I found out that my path is in graphic designing and I then discovered my interests in designing user interface and user experience.

Had a chance to compete on digital postermaking with my teammates for Buwan ng Wika.

This poster won first place as the people's choice award.

LVCC ICT Week annual celebration
had its own Facebook page and
I was tasked to make some graphic
content for celebrating
500 and 1000 likes milestones.

Had a chance to design the official Facebook frame for ICT Week celebration that went through a lot of redesigning before formally used.

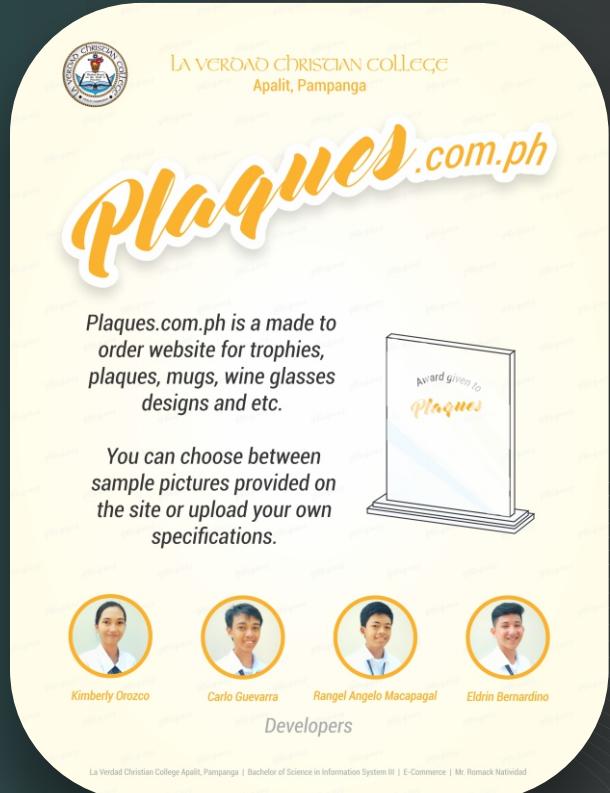

I was asked to make a design for prize cheques that was given to Hackathon winners which was held on ICT week celebration.

For the last day of celebration, I made a layout of certificate that was given to winners of different competitions on ICT Week.
